

Education

We believe that we can't count on existing institutions and must educate ourselves. To fully understand our place in society, we need to know the true history of the radical queer and trans struggle.

Education in both method and theory is the first step to change.

Educate. Agitate. Organize.

Intersectionality

All forms of oppression are interconnected. The struggle against white supremacist capitalist patriarchy can only be won if we fight it together on all fronts. We stand in solidarity with all who resist the genocidal US regime.

Our liberation must mean the liberation of all oppressed peoples everywhere. It is feminist, queer, decarceral, anti-racist, decolonial, and anti-ableist.

Socialism

Capitalism must end. Trans people are more likely to be unemployed, unhoused, and face workplace discrimination.

Socialism is the only viable alternative for our planet and our future. We want democratic control of the economy and our workplaces, full housing for our communities, and the right to leisure and free time.

A better world is possible, but only if we make it.

TRANS LIBERATION FRONT

LAWRENCE

Who are we?

Originally a chapter of the Trans Protection Party, **TLF is a radical socialist mutual aid organization.** We are committed to direct action on behalf of our community's basic needs.

We live in a time of increasing violence against our trans and nonbinary siblings. We must defend our communities ourselves; no one else will.

We need to stick together and fight for each other.

Trans Liberation

Our liberation begins with the right to bodily autonomy and self determination. More than that, **we want to live with dignity**, free from oppressive structural violence and our current intolerable conditions.

Liberation means building power through education, mutual aid, radical solidarity, and connection. **Oppression can only be overcome from the bottom up.**
